ABOUT ME

I develop web-based projects using .NET and ASP.NET Core, actively contributing to the software development process. I focus on data processing, visualization, and data mining to strengthen my analytical skills. I value producing efficient and sustainable solutions within teams by applying agile methodologies. By adhering to clean code principles, such as readability and structural consistency, I continuously aim to improve my technical proficiency.

WORK EXPERIENCE

Sampas Holding – İstanbul, Türkiye

City: İstanbul | Country: Türkiye

Full Stack Developer Intern

[07/2024 – 08/2024]

I worked as a Fullstack Developer Intern at Sampaş Bilişim, a company under Sampaş Holding. During my internship, I participated in multiple projects and developed my skills. On the backend, I developed RESTful services, and on the frontend, I worked on projects using React.

Doganlar Mobilya Grubu – İstanbul, Türkiye

City: İstanbul | Country: Türkiye

E-Commerce Marketplace Intern

[08/2024 – 09/2024]

I focused on improving operational processes, enhancing e-commerce infrastructure, and ensuring customer satisfaction. I applied marketing strategies to boost brand visibility and sales while gaining experience in managing online shopping platforms, including product updates, invoice management, and logistics reports.

Gini Talent – Online, Türkiye

City: Online | Country: Türkiye

Search Engine Quality Improvement Specialist (Yandex)

[07/2024 – 04/2025]

I analyzed online content in terms of reliability and quality. I worked on search engine, translation, and voice assistant systems, contributing to content analysis, data labeling, and NLP-based developments.

EDUCATION AND TRAINING

Bachelor of Information Systems Engineering

Sakarya University [2021 – 2025]

City: Sakarya | Country: Türkiye | Website: <https://bsm.sakarya.edu.tr/> | Final grade: 3.15

Bachelor of Science in Computer Science

PWSTE [2023 – 2023]

City: Jaroslaw | Country: Poland | Website: <https://www.pwste.edu.pl/> | Final grade: 3.92

Erasmus+ Student Mobility

Erasmus+ Youth Exchange In Italy

Erasmus+ [05/2024 – 05/2024]

City: Pignola | Country: Italy | Website: <https://www.youthpass.eu/en/>

I participated in an Erasmus+ project in Italy aimed at enhancing young people's media literacy and critical thinking skills together with participants from different countries. As part of the project, we conducted workshops, talk shows, and produced promotional videos; additionally, we provided training to middle school students.

[01/10/2024 – 11/11/2024]

Asp.Net Core Api- Rapid Api ve Api Consume

I completed the course on Udemy. Throughout the course, I gained hands-on experience in building and consuming APIs using ASP.NET Core. I learned how to integrate third-party APIs, manage requests efficiently, and implement best practices for API development.

Link: <https://github.com/furknsyl/HotelAPI>

E-Commerce Website

I developed the E-Commerce Site Project Where Small Home Appliances Are Sold using Asp.NET MVC architecture and SQL.

Link: https://github.com/furknsyl/E_Ticaret

[01/09/2023 – 04/10/2023]

A SQL-based commercial automation project using C# and DevExpress.

I completed a course on Udemy to strengthen my knowledge of SQL, DevExpress, and C#.

[15/08/2023 – 04/10/2023]

Learn C# by Developing Applications from A to Z.

I completed a course on Udemy to strengthen C#.

VOLUNTEERING

[27/02/2023 – 10/07/2023] Poland

PREPARATIONS FOR THE CHARITY ACTION FOR THE SHELTER FOR HOMELESS ANIMALS IN ORZECOWCE

While I was on Erasmus, We organized a charity event with our Erasmus coordinator for the animals in the shelter. We placed donation boxes at certain points and used the collected funds to buy food and other necessities for the animals. We even made it into the local newspaper.
