ABOUT MYSELF

As an Information Systems Engineering student, I am working on .NET and ASP.NET Core technologies. I am gaining experience in software development, data management, and e-commerce operations to enhance my technical skills. I have a particular interest in autonomous systems and AI-powered projects, aiming to advance myself in these fields. As someone who is always eager to learn, I focus on creating innovative solutions and making a difference in the software industry.

WORK EXPERIENCE

🏢 *Sampas Holding* – İstanbul, Turkey

City: İstanbul | **Country:** Turkey

Full Stack Developer Intern

[22/07/2024 – 16/08/2024]

I worked as a Fullstack Developer Intern at Sampaş Bilişim, a company under Sampaş Holding. During my internship, I participated in multiple projects and developed my skills. On the backend, I developed RESTful services, and on the frontend, I worked on projects using React.

🏢 *Doganlar Mobilya Grubu* – İstanbul, Turkey

City: İstanbul | **Country:** Turkey

E-Commerce Marketplace Intern

[26/08/2024 – 23/09/2024]

I focused on improving operational processes, enhancing e-commerce infrastructure, and ensuring customer satisfaction. I applied marketing strategies to boost brand visibility and sales while gaining experience in managing online shopping platforms, including product updates, invoice management, and logistics reports.

🏢 *Gini Talent* – Online, Turkey

City: Online | **Country:** Turkey

Search Engine Quality Improvement Specialist

[01/07/2024 – 15/04/2025]

I am currently working as a Search Engine Quality Improvement Specialist, focusing on analyzing and evaluating online content for reliability and quality, ensuring accurate and high-quality search results. My responsibilities include reviewing search results to flag incorrect or irrelevant pages, verifying information for accuracy, and enhancing text quality through in-depth research and validation, contributing to a better user search experience and improving the reliability of online information.

A SQL-based commercial automation project using C# and DevExpress.
I completed a course on Udemy to strengthen my knowledge of SQL, DevExpress, and C#.

[15/08/2023 – 04/10/2023]
Learn C# by Developing Applications from A to Z.
I completed a course on Udemy to strengthen C#.

VOLUNTEERING

[27/02/2023 – 10/07/2023] Poland
PREPARATIONS FOR THE CHARITY ACTION FOR THE SHELTER FOR HOMELESS ANIMALS IN ORZECHOWCE
While I was on Erasmus, We organized a charity event with our Erasmus coordinator for the animals in the shelter. We placed donation boxes at certain points and used the collected funds to buy food and other necessities for the animals. We even made it into the local newspaper.
